

# Smart Marland Monitoring System

Up to the minute access to critical system operating conditions including Vibration, Temperature and Oil Level

**You can now remotely monitor the condition of your equipment from anywhere using your computer or cell phone.**

#### Performance capabilities:

- Monitor up to 6 devices from a single gateway
- Set desired report intervals
- Perform statistical analysis to identify maintenance and repair needs
- Alarm notifications

#### Simple system requirements:

- Power supply (24Vdc, 120/240 VAC, 50/60 Hz)
- Less than 200m line of site between gateway and devices
- Access to local network or cellular signal

#### Reporting capability:

- Current measurements
- Historic trending
- Vibration analysis
